

# WL 100

An economical and effective POU cooler for dispensing safe and clean drinking within the workplace. Offers ideal water dispensing capacity for smaller offices and factories. This smart looking machine uses our carbon filtration system to filter water and improve the water quality so it is always fresh and tastes great.

## Science in. Impurities out.

### Delivering Pure Water Technology

This Waterlogic dispenser has 2 core technologies which mean that what you get out of your machine is much better than what goes in:

**1. Filtration:** our filtration technology is really good at taking the bad stuff out and leaving the good stuff in. This stage removes chlorine and other water-borne tastes and odors.

**2. BioCote®:** we've got the inside covered and the outside too. As another layer of defense, BioCote keeps the dispensing area free of bacteria.

## Performance Worthy of an Encore

- Ideal capacity for the small workplace
- Hot, cold and ambient options
- Easy connection to your existing mains water supply
- Value-for-money entry-level model
- New look, different to most water dispensers
- Freestanding and counter top options to suit every workplace

## The Boring Bits

Water Options	Technical Features	
<ul style="list-style-type: none"> <li>•  </li> <li>•  </li> </ul>	Type available	Freestanding Counter top
	Freestanding dimensions	W 345mm x H 1030mm x D 367mm W 13.6in x H 40.6 in. x D 14.4in
	Counter top dimensions	W 345mm x H 457mm x D 367mm W 13.6in x H 18in x D 14.4in
	Dispense area height	TBC
Symbols	Weight	Freestanding: 28KG Counter Top: 23KG
 Ambient water	Standard filtration supplied (where applicable)	1 x Granular Activated Carbon (GAC)
