

WL 850

Our popular high-volume cooler model is perfect for factories, satisfying heavy demand all day long. Offer your workforce pure, fresh, invigorating water for peak performance and better focus. The WL 850HV owes its success to three great features: high volume, sturdy design and sparkling water. Employees love it and there is always enough to fill every cup. UV technology guarantees purity and our carbon filtration system means the water tastes beautiful, too.

Refreshing water starts with refreshing technology

Three Steps to Greatness

Your Waterlogic dispenser has 3 core technologies which mean that what you get out of your machine is much better than what goes in:

1. Filtration: our filtration technology is really good at taking the bad stuff out and leaving the good stuff in. This stage removes chlorine and other water-borne tastes and odors.*

2. In-Tank UV: next, an in-tank UV (ultra-violet) lamp purifies the water. UV light wipes out harmful bacteria such as E. Coli, Salmonella and Hepatitis to guarantee a safe, clean drink.

3. BioCote®: we've got the inside covered and the outside too. As another layer of defense, BioCote keeps the dispensing area free of bacteria.

*Where applicable.

Performance Worthy of an Encore

- Ideal capacity and robust design for busy factories and offices
- UV technology eliminates bacteria
- Sparkling, hot, cold and ambient options
- Sparkling water is a rewarding bonus for your workforce
- Freestanding and counter-top options to suit every workplace
- Thermal overload alarm for peace of mind
- Easy connection to your existing mains water supply
- Smart design with simple buttons and icons for ease of use
- Big dispensing gap to fit a large jug or carafe
- Quality and safety guaranteed

The Boring Bits

| Water Options | Technical Features | | | |
|---|---|---|------------------------|--------------------|
| <ul style="list-style-type: none"> •   •    •    (freestanding only) | Type available | Freestanding Counter top | | |
| | Freestanding dimensions | 380mm (W) x 1140mm (H) x 340mm (D) 14.96in (W) x H 44.88in (H) x 13.38in (D) | | |
| | Counter top dimensions | 380mm (W) x 470mm (H) x 340mm (D) 14.96in (W) x H 18.5in (H) x 13.38 (D) | | |
| | Dispense area height | 240 mm, 9.5 in | | |
| | Weight | Freestanding: 40 KG Counter top: 29 KG | | |
| Symbols | Standard filtration supplied (where applicable) | 1 x Granular Activated Carbon (GAC) | | |
|  Ambient water | Additional features | UV sensor Leak detection | | |
|  Cold water | Capacity | Cold: 2 liters | Sparkling: 2 liters | Hot: 1.4 liters |
|  Sparkling water | Compressor | 230V (or 110v) /50Hz (60Hz) compressor | | |
|  Hot water | Water temperatures | Cold: 5°C/41°F Hot: 87°C/189°F | | |
|  Extra Hot water | | | | |
